Portfolio: <https://cvo-geospatialdataanalyst-portfolio.netlify.app/>

PROFESSIONAL SUMMARY

Geomatics Engineering graduate from the University of Calgary with experience in GIS workflows, spatial databases, Python-based geospatial analysis, infrastructure mapping, cartography, and spatial data visualization. Skilled in ArcGIS Pro, QGIS, SQL, PostGIS, Python, and AI-assisted analytical workflows. Combines technical spatial analysis with strong visual communication and creative systems thinking to produce stakeholder-ready geospatial insights and data-driven solutions.

SKILLS

Technical Skills:

- **Geospatial & GIS**

ArcGIS Pro, QGIS, Spatial Analysis, Cartography, Spatial Databases, PostGIS, Geodatabases, Raster & Vector Processing, GPS/GNSS Concepts, Spatial Statistics, Environmental GIS, Transportation Analysis

- **Programming & Data**

Python, SQL, MATLAB, C++, Jupyter Notebook, Google Colab, GeoPandas, Shapely, Spatial Data Cleaning, Data Validation, Automation Workflows

- **Visualization & AI Workflows**

Data Visualization, Technical Reporting, Dashboard Design, AI-Assisted Research, Prompt Engineering, Technical Documentation, Visual Communication

Soft Skills: Problem-Solving, Teamwork, Adaptability, Strong growth mindset, Teachable, Adaptable, Excellent attention to detail and data quality, Excellent Communication.

PROFESSIONAL EXPERIENCE

GIS & Geospatial Data Intern

NorthGrid Spatial Analytics — Canada | 2024 – Present

- Supported geodatabase maintenance, GIS mapping workflows, QA/QC checks, and spatial analysis tasks for urban and environmental datasets.
- Assisted with cartographic production, coordinate verification, spatial data organization, and technical documentation.
- Contributed to GIS workflows involving ArcGIS Pro, spatial databases, and infrastructure-related mapping deliverables.

GIS & Geomatics Engineering Intern

VICDANPEE PLC — Port Harcourt, Nigeria | 2021 – 2022

- Collected, validated, and organized spatial datasets for road corridors, utility assets, and infrastructure documentation.
- Assisted with GPS field data capture, feature digitization, attribute standardization, and coordinate verification workflows.
- Prepared mapping outputs and technical documentation supporting engineering and infrastructure planning activities.

Creative Director & Brand Strategist

7ÜNIVERSE / Thrift.ng — Lagos, Nigeria | 2021 – Present

- Led multidisciplinary creative direction across branding, digital campaigns, visual systems, and content strategy.
- Designed visual communication systems integrating storytelling, technology, spatial aesthetics, and audience engagement.

- Applied AI-assisted creative workflows for ideation, design refinement, documentation, and digital portfolio development.
-

SELECTED GEOSPATIAL PROJECTS

Spatiotemporal Traffic Incident Analysis & Hotspot Detection — Calgary

- Analyzed ~51K Calgary traffic incidents (2017–2024) using KDE, DBSCAN, HDBSCAN, and temporal trend analysis.
- Built GIS-ready datasets, spatial visualizations, and hotspot detection workflows using Python and ArcGIS tools.

Spatial Databases & Topological Analysis

- Designed and queried PostGIS spatial databases using intersections, dissolves, spatial indexing, and topology operations.
- Applied SQL workflows for urban planning and spatial relationship analysis.

Environmental GIS & Spatial Interpolation

- Completed GIS applications involving greenhouse gas mapping, snowfall interpolation, sustainable transportation analysis, and earthquake visualization.
- Produced map-based deliverables using ArcGIS spatial analyst workflows.

Geospatial Python Automation

- Implemented Python-based boundary simplification and geometry processing workflows using GeoPandas and Shapely.
 - Validated spatial outputs and documented reproducible geospatial analysis methods.
-

EDUCATION

Master of Engineering (MEng), Geomatics Engineering

University of Calgary — Calgary, AB | Completed April 2026

- Relevant Areas: GIS, Spatial Databases, Data Mining, Satellite Positioning, Photogrammetry, Spatial Statistics, Remote Sensing, Technical Reporting

Bachelor of Science (BSc), Computer Science

Madonna University — Nigeria | 2016 – 2020

- Minor focus in Software Engineering, Databases, and Data Analysis.
-

ADDITIONAL INFORMATION

- Legally entitled to work in Canada
- Comfortable working remotely or in hybrid environments
- Open to occasional travel as required
- Actively pursuing continued learning in Esri technologies and GIS best practices
