Portfolio: <https://cvo-geospatialdataanalyst-portfolio.netlify.app/applications/esri/>

PROFESSIONAL SUMMARY

Geomatics Engineering graduate from the University of Calgary with experience in GIS application workflows, spatial databases, Python-based geospatial automation, web portfolio development, spatial data visualization, and technical problem-solving. Skilled in ArcGIS Pro, SQL, PostGIS, Python, JavaScript, HTML/CSS, and geospatial analysis workflows. Interested in developing scalable GIS solutions that combine geospatial technologies, modern web systems, spatial databases, and interactive user-focused design.

SKILLS

Technical Skills:

- **Geospatial & GIS**

ArcGIS Pro, QGIS, Spatial Analysis, Cartography, Spatial Databases, Geodatabases, Raster & Vector Processing, Coordinate Systems & Transformations, Environmental GIS, Transportation Analysis

- **Programming & Data**

Python, SQL, MATLAB, C++, GeoPandas, Shapely, Jupyter Notebook, Google Colab, Data Validation, Geospatial Data Cleaning, Spatial Data Modeling

- **Mapping & Field Support**

GPS/GNSS Concepts, Technical Reporting, GIS Figure Production, Infrastructure Mapping, Spatial QA/QC, Field Data Collection Support, Spatial Documentation

Soft Skills: Problem-Solving, Teamwork, Adaptability, Strong growth mindset, Teachable, Adaptable, Excellent attention to detail and data quality, Excellent Communication.

PROFESSIONAL EXPERIENCE

GIS & Geospatial Data Intern

NorthGrid Spatial Analytics — Canada | May 2025 – September 2025

- Supported GIS mapping workflows, geospatial database maintenance, spatial QA/QC checks, and cartographic production for environmental and urban datasets.
- Assisted with coordinate verification, spatial data organization, map layout preparation, and technical GIS documentation.
- Contributed to ArcGIS Pro workflows involving spatial analysis, data validation, and infrastructure-related mapping deliverables.

GIS & Geomatics Engineering Intern

VICDANPEE PLC — Port Harcourt, Nigeria | 2021 – 2022

- Collected, validated, and organized geospatial datasets supporting utility, infrastructure, and transportation-related projects.
- Assisted with GPS field data capture, feature digitization, attribute standardization, and spatial data management workflows.
- Prepared cartographic outputs and technical documentation supporting project planning and GIS reporting.

Creative Director & Visual Systems Lead

7ÜNIVERSE / Thrift.ng — Lagos, Nigeria | 2021 – Present

- Designed and developed interactive portfolio experiences integrating responsive web layouts, animation systems, geospatial storytelling, and visual communication.
- Applied AI-assisted workflows to accelerate development, debugging, documentation, and interface design processes.

- Built user-focused digital systems emphasizing accessibility, responsive behavior, visual hierarchy, and technical presentation.
-

SELECTED GEOSPATIAL PROJECTS

Spatiotemporal Traffic Incident Analysis & Hotspot Detection — Calgary

- Analyzed ~51K Calgary traffic incidents (2017–2024) using KDE, DBSCAN, HDBSCAN, and temporal analysis workflows.
- Produced GIS-ready datasets, hotspot maps, spatial visualizations, and technical reporting outputs.

Spatial Databases & Geospatial Data Mining

- Designed and queried spatial databases using SQL and PostGIS workflows.
- Applied clustering and pattern recognition techniques for spatial data analysis and geospatial insight extraction.

Boundary Simplification & Geospatial Automation

- Implemented Python-based geometry simplification and geospatial automation workflows using GeoPandas and Shapely.
- Compared tolerance settings, validated outputs, and documented reproducible analytical methods.

Interactive Geospatial Portfolio System

- Developed a responsive web portfolio integrating JavaScript interactions, animated UI systems, fullscreen modals, filtering systems, and mobile-compatible layouts.
 - Applied frontend design principles emphasizing usability, responsiveness, and interactive storytelling.
-

EDUCATION

Master of Engineering (MEng), Geomatics Engineering

University of Calgary — Calgary, AB | Completed April 2026

- Relevant Areas: GIS, Spatial Databases, Spatial Statistics, Remote Sensing, Photogrammetry, Satellite Positioning, Technical Reporting

Bachelor of Science (BSc), Computer Science

Madonna University — Nigeria | 2016 – 2020

- Relevant focus: software engineering, databases, programming, systems analysis, and technical problem-solving.
-

ADDITIONAL INFORMATION

- Legally entitled to work in Canada
- Comfortable working remotely or in hybrid environments
- Open to occasional travel as required
- Actively pursuing continued learning in Esri technologies and GIS best practices
